### DETAILED ACTION

1. This Office Action is in response to Amendment filed 6/14/2004.

### REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The prior arts of record taken alone or in combination fail to teach, anticipate, suggest or render obvious the claimed invention for a memory device including a test operation mode selector circuit that, in the self-test activated condition, "***which generates a test operation mode signal that designates any of a plurality of test operation modes including the write or read in response to a test operation mode input signal from outside***", wherein, in response to the test operation mode signal, the test operation command generating circuit generates the test operation command for executing the test operation mode, recited in the independent claims 1, 26 and 38, as amended.

Consequently, independent claims 1, 26, and 38 are allowed over the prior arts of record. Claims 3-25, 27-37 and 39 are directly or indirectly depended upon the independent claims and therefore are also allowable.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
